

guestsupply®

Along with the recyclable packaging and skin-friendly formulas, Guest Supply is supporting honey bee and sustainable pollination research by donating a portion of the proceeds from the sales of the BeeKind Collection to Honey Bee Research Programs.

The collection paper bottle is a 59% reduction in packaging material by weight and a 92% reduction in waste space compared to rigid plastic bottles.

With honey and certified organic extracts of red clover, calendula, lemongrass and chamomile, BeeKind is as soothing as it is stylish.
